Trimaran Rossana

Manufacturer: INTERFACE SHIPPING Ltd.

Classification: RINA s.p.a.

Type: Modular Trimaran Barge

Dimension / Structure:

- **Length:** 30 mts.
- **Breadth:** 10,50 mts.
- **Min. Draft:** 1,00 mt.
- **Max. Draft:** 1,50 mtas.
- **Structure:** Steel

Number of Unit Build: 1

Additional Data: ROSSANA is a Modular Trimaran type Vessel. The elements it is composed of are shaped (as a standard container) and therefore it is easily transportable both by land and by sea. It can be used as a support vessel for the post trenching and pre trenching machine for jobs in shallow water and is particularly interesting for shore approach job, due to its limited draft.
